ALLEGRETTO.

Oh I ne'er can for-get thee thou brightest and best for I

feel I shall ne-ver a-gain know a Zest in the *ff*

Goblet or peace in my rest 'till I clasp my sweet O-live of

Spain Still I think on the time when the Moon beams in

At the moment I think to repeat
 Though my lungs I see beating vain in their way
 We love say it it's true in the heart
 You it does what a flash is that we find out
 And still true to the words that I wrote
 While my heart beats, think as the day is done
 We will dance the Gavotte once more

showers of rich pearls on the dark waters fell How I

tripp'd by the Fire fly's gay light o-ver flowers to breathe love to you

down in the dell.

2
 Can I ever forget how you murmured with sighs
 At the moment I turn'd to depart
 Though my Image I see beaming warm in thine eyes
 Ah Love say if it shines in thy heart
 Yes it does dear as fresh as the hour we first met
 And still true to the oaths that I swore
 While my heart beats as quick as thy gay Castanet
 We will dance the Guaracha once more.
